

BeeSeen Solutions announces its strategic partnership with Cornerstone

NEW YORK (PRWEB) OCTOBER 30, 2019

BeeSeen Solutions, a premier provider in developing highly effective digital marketing strategies located in Long Island, New York announced today a strategic partnership with Cornerstone Support, Inc., a leading Compliance and Licensing agency in the Accounts Receivable Management (ARM) space, located in Roswell, USA, to assist in its growth through its [LinkGen](#) Solutions offering.

[LinkGen](#) is a revolutionary process platform, configured to automatically identify and generate connection requests to business professionals with the highest probability of being interested in your value proposition. [LinkGen](#) will add these Connections to your network and begin a customized automated marketing campaign.

Through this interface, Cornerstone Support, Inc., found a way to develop meaningful relationships with decision-makers in their target industry. They were able to make a connection allowing them to listen to decision-makers' unique needs within their target industry.

“When we first met with BeeSeen Solutions and learned about their LinkGen platform, we were amazed at what it could provide us. Seeing it in action to say the least was eye-opening. It provided opportunities to us that would normally have taken a much longer cycle and gave us communication with our targeted audience almost instantly. Their drive and commitment to help organizations see success is supported by their consultative approach and proactive lines of communication.” stated, Keith Montgomery, Director of Marketing Cornerstone Support.

“We are thrilled to have built a successful partnership with the experts at Cornerstone Support. They have always been forward-thinking and out of the box group providing best in class service. It is evident in their understanding and approach to delivering the

highest level of compliance, and efficiency to their clients on a day-in and day-out basis. Leveraging our [LinkGen](#) Solution and Intelligent Automation has showcased the immediate success that has multiplied at a rapid rate. We are excited to continue our digital transformation journey together to bring assistance to the marketplace while helping empower professionals across all areas of an organization.” stated, Patrick Pinto, CMO, BeeSeen Solutions.

“We are committed to assisting companies to grow through intelligent automation such as RPA Technology and the evolution of our digital workforce. Through our BSSRPA.com solutions, we work with clients to drive higher levels of compliance, performance, and profitability while ensuring a positive customer experience at all levels. When you have a leader in the space such as Cornerstone Support working shoulder to shoulder to make a difference only good things can happen,” stated, Thomas J Vito, CSO, BeeSeen Solutions.

About Cornerstone Support, Inc.

Cornerstone Support has been a trustworthy pillar to the ARM industry since 1998. At its inception, Cornerstone Support was the first of its kind, assisting with state licensing and commercial insurance needs of the debt collection industry. Today, more than 20 years later, Cornerstone still retains the reputation as the premier state licensing and insurance provider.

Cornerstone has served as a valued partner to thousands of collection agencies, debt buyers, and attorneys. Cornerstone’s level of experience, knowledge, and quality trained staff is unparalleled in the industry.
