

CCA of A Gives Back

The charitable initiative of
Commercial Collection Agencies of America
announces

donations to food pantries across the United States!

The coronavirus pandemic has caused a 40% increase in demand for food at food banks and pantries across the United States.

Food banks and pantries are desperately in need...

WE ARE HELPING....and asking for your assistance!

Commercial Collection Agencies of America is donating to a food pantry in **each** of our Board members' locales.

Our Board members have agreed to individually match the donation.

To make a larger impact, we are asking each member to donate to his/her local food pantry and the Association will match that donation (up to \$50 per member!)

Simply email the name of your area's food pantry and the best way to donate (through a website or address to send the Association's check) and the Association will immediately dispatch funds directly to the food pantry.

We will proudly list the name of your firm on a special email blast, a press release to the credit and collection community and on the Association website.

Please email awaggoner@commercialcollectionagenciesofamerica today!

Let's do this!

Let's all pitch in and make a difference!
